LEADHACKRS STARTUP ACCELERATOR (LSA)

- Leadhackrs is launching **LSA**. A startup accelerator for bootstrapped founders and solopreneurs seeking to build sustainable systems to get traction and scale revenue.
- Are you fed up trying to acquire customers but aren't seeing the results that you desire?
- There's hope! You face unique problems and must learn to operate in the face of unforeseen circumstances. Through our lessons learned advising startups, We've developed systems for startups to implement to scale.

DISCOVER PROVEN SYSTEMS

- You need proven systems to gain traction and grow revenue without burning through cash. With LSA you can use standard operating procedures (SOP's) to train an agile bench of contractors to take control of your company's growth.
- If you're tired of having to pay per click in the hopes of generating leads this accelerator is for you... and no you won't have to become a content factory.
- We've spent the past few years scaling our agency to six figures with contractors. Get all of our secrets, SOPs, and tactics in LSA.
- You won't learn from professors with no real world experience here. Instead you will be exposed to experts who've already attained the results your seeking.

REDEFINE YOUR SUCCESS

- Most of our published content focus on the “what” and “why” to scale. In LSA we go into the trenches to discuss the “how.”
- This isn't a startup accelerator for high growth startups. We're unique because our strategies are specific to bootstrapped founders and solopreneurs with limited capital and employees. As well, your goals are different.
- You're not seeking an IPO or sacrificing your vision to make investors happy. Simply put... We measure your success not only by the amount of revenue you generate but also by the work-life balance you're able to attain.
